1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Robert A. Kent on June 14, 2006. During the interview, the examiner pointed out that although the amendment to claim 1 distinguished over the primary reference to Erbstoesser et al'769 applied in the previous Office action, the secondary reference to Williamson et al'297 was found to also read on claim 1, as amended. Insofar as Williamson et al, however, is limited to the use of a starch or modified starch as a degradable fluid loss agent, it was agreed that if the term "polysaccharides" was deleted from claim 1, it would then be allowable over all cited art of record. It was also agreed that claim 3 was now redundant in view of applicant's response, and would be cancelled. It was further agreed that the species "orthoester" was both outside the scope of the Markush grouping of claim 1 and also lacked basis in the original disclosure; hence it would be deleted.

The application has been amended as follows:

In claim 1, line 5, the term "polysaccharides" has been deleted.

Claim 3 has been cancelled.

In claim 4, line 2, the recitation "an orthoester of" has been deleted.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to George Suchfield whose telephone number is 571-272-7036. The examiner can normally be reached on M-F (6:30 - 3:00).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Brian Glessner can be reached on 571-272-6843. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
